

History & Governance of NCHN

NCHN is a not-for-profit national membership organization, which is governed by its members through an elected Board of Directors.

Founded in the late 1980s, NCHN was incorporated in 1995.

In the beginning, NCHN was comprised of 5-7 members representing newly formed networks.

Today the membership is comprised of over 60 network organizations and associate members from across the United States.

The Associate Membership category was introduced in 2011 in recognition of the numerous organizations and individuals who work collaboratively with health networks to strengthen health care delivery.

NCHN is a dynamic, progressive, and nationally recognized member-driven organization that serves to support and strengthen health networks and health network stakeholders.
